

Welcome!

Welcome to Confluence!

Confluence spaces are great for creating internal and external knowledge bases for all of your clients or customers!

To get started:

Click on the **Spaces** button in the menu bar above

If the space you are looking for is not there, click on "Space directory"

Locate the space you want and click it!

Please note that you may need to log in to the space once you select it. Not all spaces are open to the public. You can use your Bowdoin username and password to log in.
